SUMMARY

I am a Computer Science graduate and Frontend Developer with hands-on experience in React.js and Flutter. I have built responsive websites, mobile app interfaces, and interactive UI components through internships and projects. I also have basic exposure to Python for AI/ML, which helps me better collaborate on data-driven products

Experience

Front-End Development Intern

DevelopersHub Corporation | July 2025 – September 2025

- Worked on real-world frontend projects using HTML, CSS, JavaScript, and React.js
- responsive UI designs following industry best practices
- Gained hands-on experience in component-based development and modern frontend workflows

Projects

Lumiskin (Frontend Web Application):

Developed a responsive frontend web application using React.js and Vite, focusing on modern UI design, reusable components, and smooth user interactions.

WildPk (Frontend Web Application):

Developed a frontend web application using React.js and Vite with user authentication and page-based routing. Focused on responsive UI design, clean layouts, and Firebase integration for user management.

MedCare App:

Developed a mobile application using Flutter and Firebase, implementing a clean UI and integrating an AI-based classification model using Python.

Student Course Allocation System:

Developed a dynamic web application using React.js, JavaScript, HTML, and CSS, implementing CRUD operations for seamless course selection and data handling.

Pic2Calorie:

Developed a Flutter-based mobile application with Firebase integration and implemented AI classification and regression models using Python for calorie estimation.

Endless Runner Game:

Developed an endless runner game as part of a team project, focusing on game mechanics, smooth character movement, and collision detection.

Skills

Expertise

- Flutter
- JavaScript
- ReactJS
- HTML
- CSS
- OOP
- DSA
- C++

Soft Skills

- Communication
- Teamwork
- Problem-Solving
- Adaptability
- Time Management
- Critical Thinking

Education

Matriculation in Science:

DHA Senior School For Boys. (2016-18)

Intermediate:

Punjab Group of Colleges. (2018-20)

Bachelor's in Computer Science (BSCS):

Lahore Garrison University. (2021-25)
